Exhibition Information

General information

The ISRA symposium is held in Amsterdam, the Dutch capital. Amsterdam is also known for its many canals and rich history. The ISRA symposium is accompanied by a technical exhibition. The exhibition forms, next to the presentation of interesting new products and developments, a nice change with the lectures. It also provides for the possibility of exchanging information between the theory and the praxis.

ISRA has chosen unique locations for its symposium. On the 15th and 16th of September the location of the symposium is Pakhuis De Zwijger, a former cooling warehouse that nowadays acts as the home port for the creative industry. On the 17th of September the location is the Concertgebouw Amsterdam. The exhibition will be held on Sunday the 15th of September and Monday the 16th of September.

Pakhuis De Zwijger

The symposium is set on the second floor of Pakhuis De Zwijger. On this floor you will find the Grote Zaal (lecture hall) for the plenary sessions. Coffee and lunch breaks will be held in the Workspace, Meeting room and in the Foyer that has a spacious coffee and beverage buffet and overlooks the river the IJ.

Pakhuis De Zwijger has a central staircase and an elevator from which the 2nd floor is easy to reach.

Exhibition stands

The exhibition is located in the Workspace. The setting of the exhibition will have an informal character. Because all of the activity is set on the second floor the exhibition is easily accessible for all participants.
